### Part 2: Medications

The administration of medication to students on field trips shall be done only when the student's health may be jeopardized without the medication. This applies to both prescription and non-prescription medication. The student's teacher or principal designated staff member will be responsible for storing and administering medication during the field trip. Exceptions are made with parent/physician consent for students with inhalers and Epi-Pens to self-carry and administer. The following must be completed and authorized by a parent/guardian in order for medications to be administered during the field trip.

1.

---

Medication

Dosage

Time to be administered

2.

---

Medication

Dosage

Time to be administered

I authorize the school to administer the above medication(s) to this student.
